

Small Changes, Big Impact

Mahnoor Zahra (02-134241)

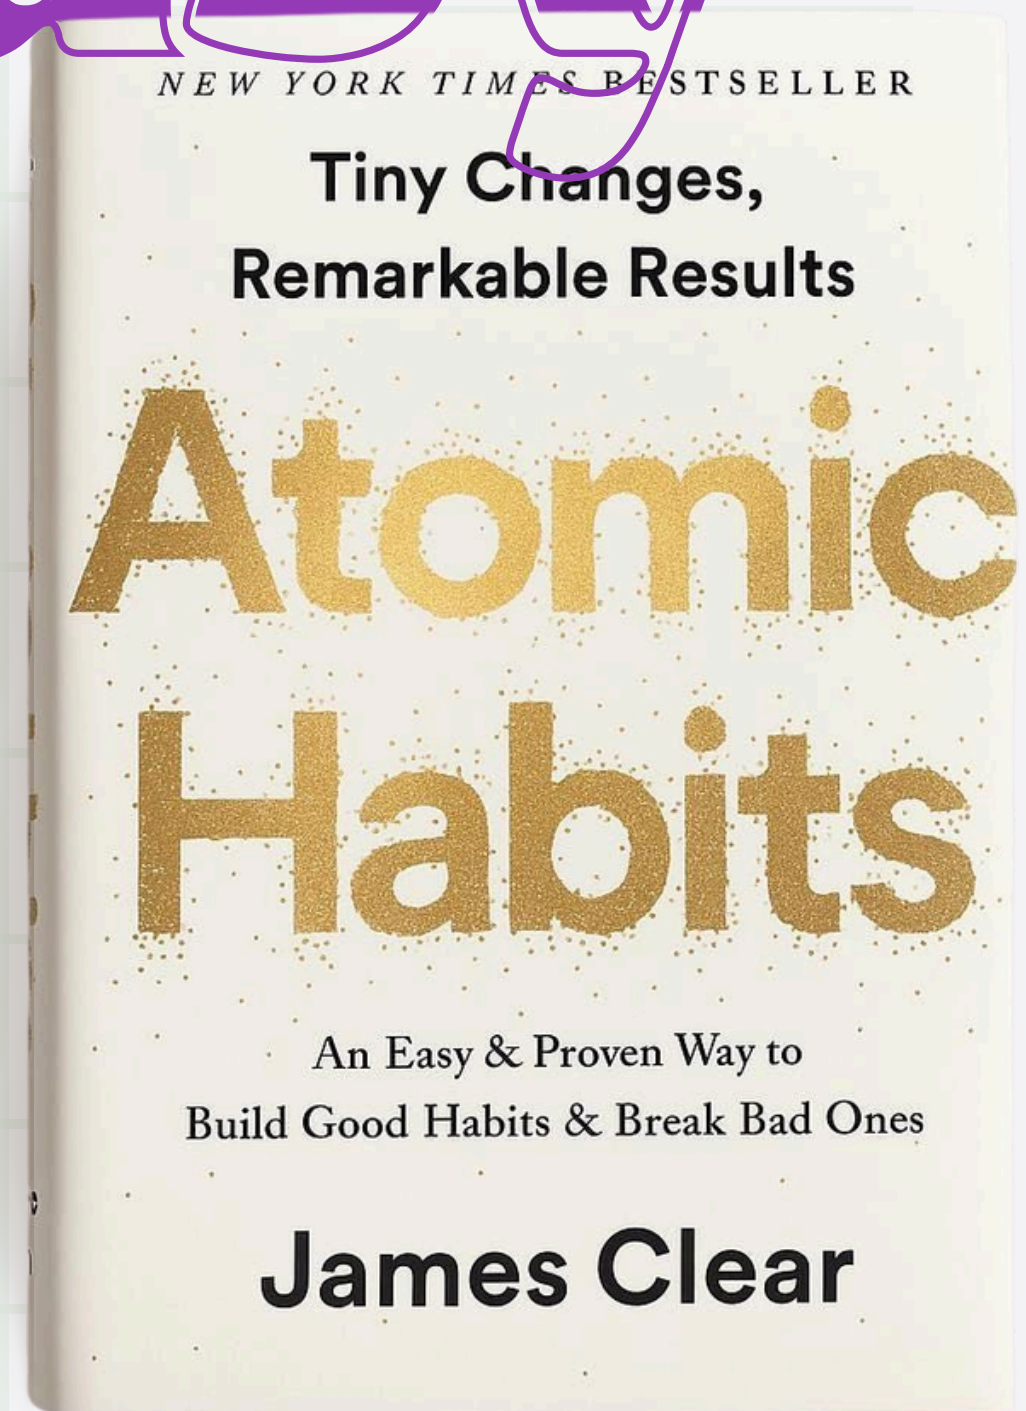

3 Third Law

How Make it Easy *changed my habits*

+ Small!
STEPS
EVERYDAY

Core Concept

THE PLOT

1 Habits should be easy, not overwhelming

You can't improve a habit that doesn't exist. Small, simple actions are easier to repeat and turn into lasting habits.

2 Start with repetition, not perfection

Focus on showing up consistently instead of trying to be perfect from day one.

3 Friction & Habits

Reduce friction for good habits and add friction for bad ones to guide your behavior naturally.

4 Law of Least Effort

We naturally choose the easiest option, so design your environment to make good habits effortless.

My Reflections

5 changes that shaped my personality

CONSISTENCY

PERFECTION

- The journey of weight loss.
- The art of mastering a skill.

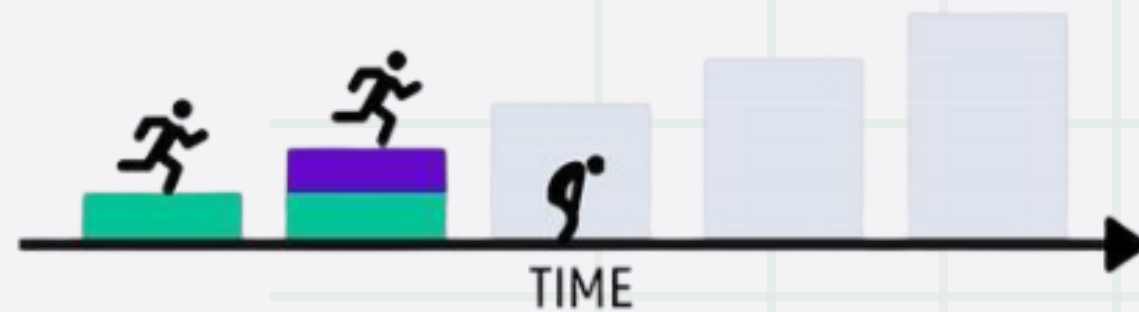

Motivation is what gets you started. Habit is what keeps you going.

It takes roughly 10,000 hours of practice to achieve mastery.

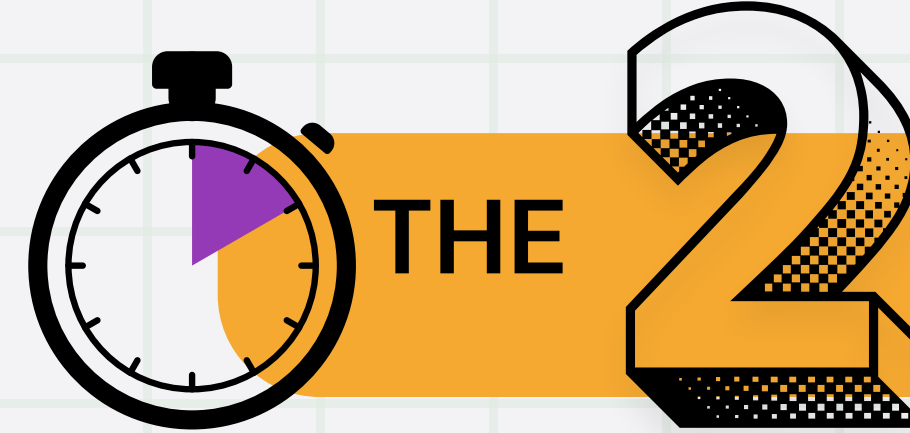

EASE THE GOOD COMPLICATE THE BAD

- Get things ready the night before a hectic day.
- Turn off social media notifications.

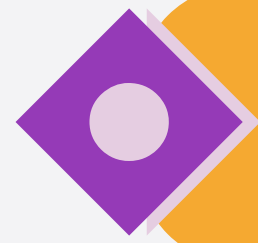

Consistency

THE 2 MINUTE RULE

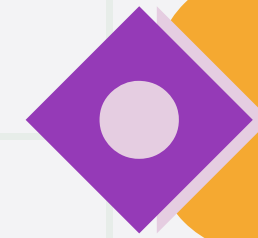

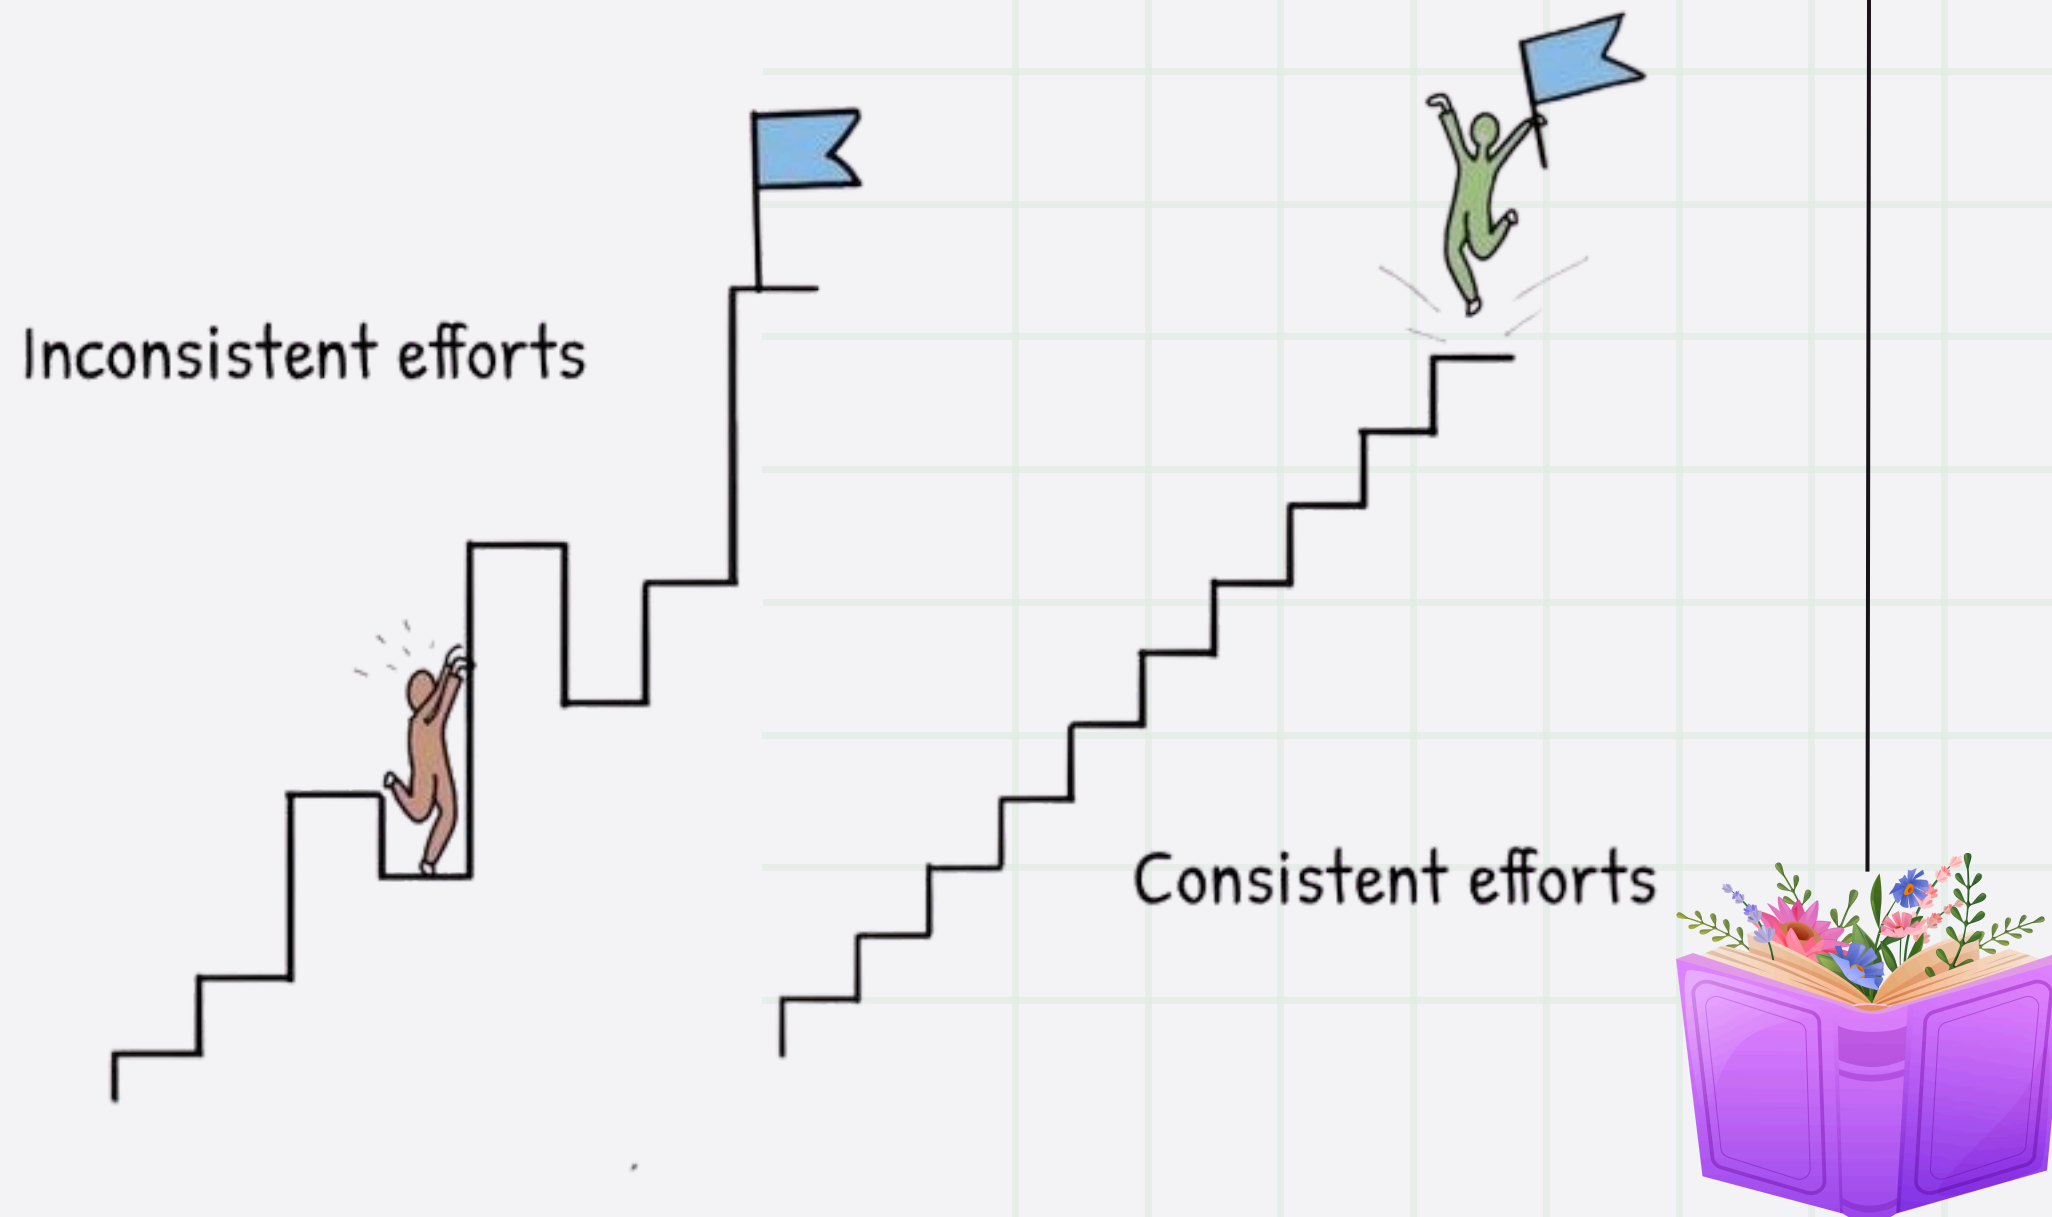

- As soon as I get up, I will clean my room.
- As soon as I hit the bed, I will journal.

MOTIVATION IS OVERRATED

- The real hero is discipline and your environment

TAKE SMALL STEPS

- Make good habits effortless. Example: Use the POMODORO Method while studying.

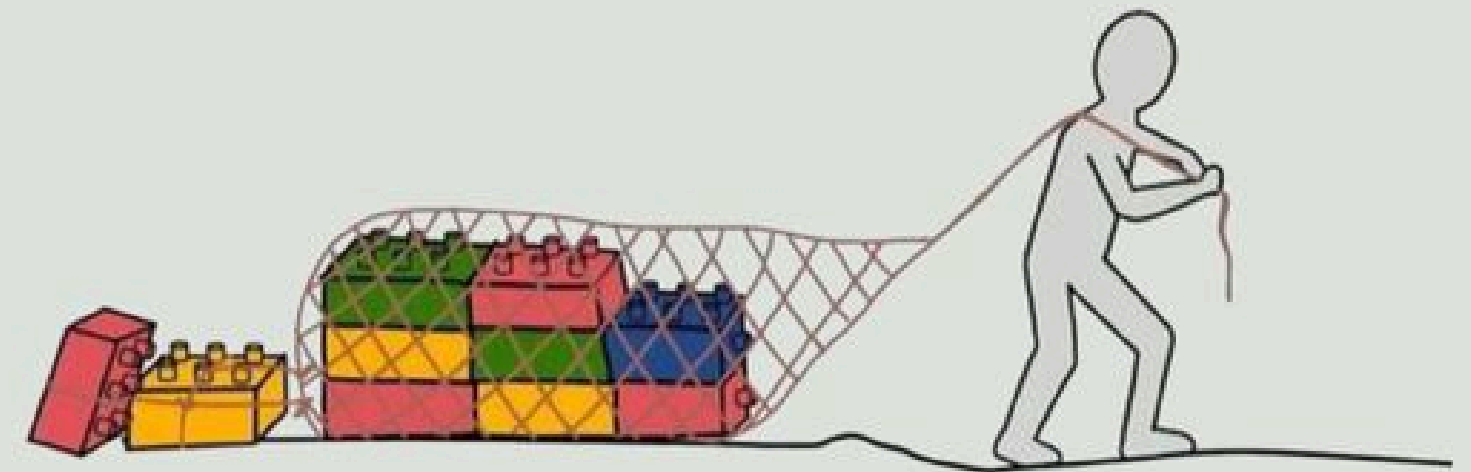

**IF YOU CANNOT DO IT
ALTOGETHER,**

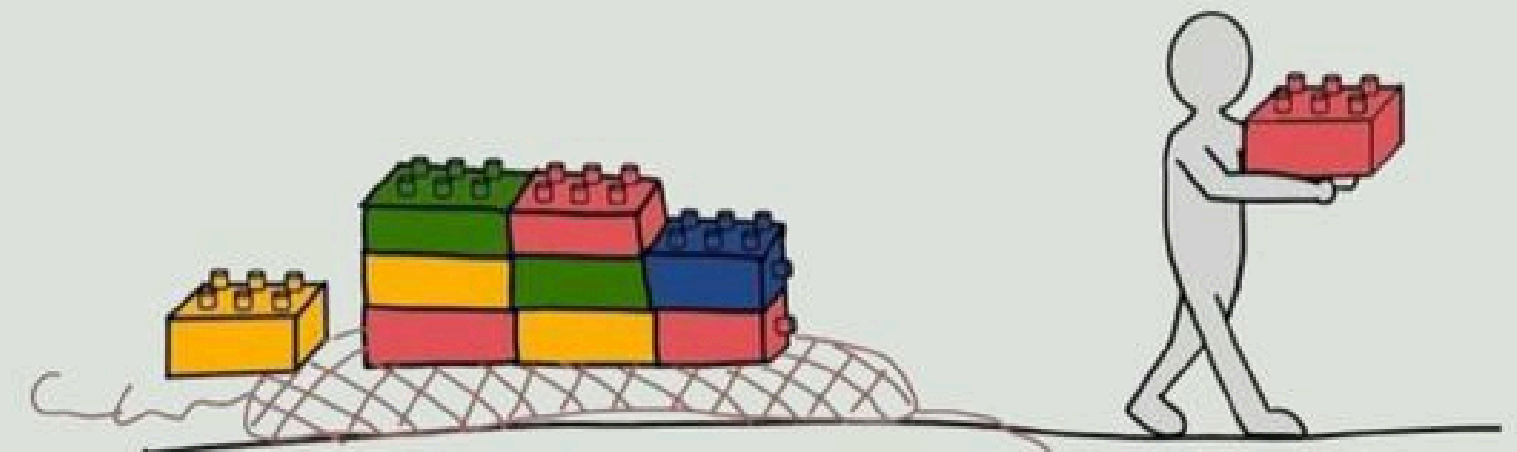

**IT'S OKAY TO TAKE IT
ONE STEP AT A TIME.**

FRNKLN
MIANO.

If you can't do it altogether

It's okay to do one step at a time

Once an implementation intention has been set, you don't have to wait for the inspiration to strike.

The best way to start a new habit

Be the designer of your world, and not merely the consumer of it.

Motivation is overrated

The more attractive an opportunity is, the more likely it is to become habit-forming.

How to make a habit irresistible

The most effective form of learning is practice, not planning.

Walk slowly, but never backward
